

Vertical awning
Screen fabric

Micro 4000 Z

Just
enjoy life!

Lewens
MARKISEN

Glass fibre screen fabric:
a view of the outside with protection from the sun's glare.

Micro 4000 Z – large square awning

Vertical awning for large windows

With a cassette height of just 15 cm, straight form and flat end caps, the Micro 4000 Z is also eminently suitable for niche installation.

Made-to-measure equipment

- Width max. 600 cm (up to 300 cm high), height max. 600 cm (up to 300 cm wide), depending on model, type and equipment
- Electric motor
- Fabric: Glass fibre screen fabric (serge)
- Options: Radio motor/ radio remote control, automatic weather sensor, window awnings

The Micro 4000 Z can be fitted both in front of the window and flush with the façade inside the window recess.

Sun and glare protection in XXL dimensions: the Micro 4000 Z was developed especially for large windows and transits on glass roofs and conservatories. It is equipped with a lateral zip guide and track, in which the fabric is concealed and guided like a zip. With screen fabric the view outwards is retained.

Closed guide (Z)

Track with lateral zip guide:
For higher fabric tension, greater wind safety and improved lateral balancing of structural tolerances.

Micro 4000 Z
