enjoy life!

Lewens
MARKISEN

*Economy Open type
and Micro 1060 Z vertical awnings.*

Economy – purist and patently good

Folding arm awning for patios and balconies

Functional and reliable
– the front profile brackets

Shapely yet robust
– the arm brackets

Well designed

- Width 1 unit max. 600 cm, drop max. 300 cm
- Supplied as standard with classic valance
- Crank operation
- Options:
Electric motor, radio motor/radio remote control, automatic weather sensor, LED lighting, radiant heater, support legs

Open type

On the basic Economy type, the awning fabric roller is exposed ("open").

Round end caps at the sides create a harmonious impression.

Rain Cover type

The protective cover protects the awning against the effects of the weather when it is retracted.

Quality and youthful design at a budget price:

The Economy awning is the perfect solution for anyone looking for a high-quality, well-designed sunshade. The folding arm awning offers a convincing combination of top Lewens quality, proven back bar technology, easy operation and a host of optional features.

LED lighting

Equipped with a radio receiver, suitable mood lighting for any situation can be created by remote control or via the home automation system.

Options

Want extra features for added convenience?

Then you can equip your awning with an electric motor and wall switch along with other comfort options. With an optional radio motor and radio remote control, the awning and other functions can also be integrated into a home automation system.

Radio controllers

create the prerequisites for integrating all patio functions into the home automation system, with convenient operation by tablet or smartphone.

Automatic weather sensor

Sun, wind and rain sensors ensure automatic, weather-dependent control of awnings – even when there's no one at home.

Infrared radiant heaters

create a cosy atmosphere and pleasant warmth under awnings and glass roofs, even on chilly days.
